

Integrated Marketing Group

Integrated Marketing Group 4000-VCF

Integrated Marketing Group style 4000-VCF is a **specialized plain weave, asbestos-free fabric**. This powerful heavyweight fiberglass fabric features a **high-quality vermiculite coating** which enables the fabric to conduct heat radially along the fabric rather than through it. 4000-VCF was designed specifically for proscenium curtains in theaters and auditoriums, in order to restrict the passage of heat, smoke and flames, in the event of a fire, while the audience is being evacuated.

Values

Weight	41 oz/sy +/- 10%
